Electronic funds transfer: ECHO Health

Molina contracts with our payment vendor, the SSI Group, who partnered with ECHO Health, Inc. (ECHO) for electronic funds transfer (EFT) and electronic remittance advice (ERA).

EFT/ERA services give providers the ability to:

- Reduce paperwork
- Search ERAs, as well as historical explanation of payment (EOPs) by claim number, member number, etc.
- Receive payment and ERA access faster
- View, print, download and save a PDF version of the EOP

On this platform, the provider may receive payment via EFT, automatic clearing house (ACH), physical check or virtual card.

Virtual card:

- If no payment preferences have been specified on the ECHO platform, the payments will be made via a virtual card. This method may include a fee established in the agreement between the provider and the merchant and is not charged by Molina or ECHO.
- If a provider would like to opt out of receiving virtual cards, they should contact Molina and request to opt out of virtual cards before their first payment.
- To opt out of virtual cards after the first payment, providers can request that payment be reissued by following the instructions on the EOP and contacting ECHO Customer Service at **(888) 834-3511**, Monday-Friday, 7 a.m. - 6 p.m. CT, or edi@echohealthinc.com.

Once the provider has enrolled in electronic payments they will receive the associated ERAs from ECHO with the SSI group payer ID. Providers should ensure that their practice management system is updated to accept the Molina payer ID. All generated ERAs will be accessible to download from the ECHO Provider Portal at providerpayments.com.

Find additional information on our provider website:

- [ERA/EFT enrollment information](#)
- [Frequently asked questions](#)

Note: There is no cost to the provider for EFT enrollment, and providers are not required to be in network to enroll. Providers who enroll in EFT payments will automatically receive ERAs as well. Access to the SSI Group is free to Molina providers.

Close care gaps and boost member engagement with Molina Care Connections

Molina Care Connections is transforming care delivery for Molina members by focusing on key Healthcare Effectiveness Data and Information Set (HEDIS®) quality results, improving health outcomes, enhancing member satisfaction and closing care gaps through shared decision making and collaboration. Care Connections provides a reliable safety net for members, helping them access essential care when they cannot see their primary care provider (PCP) or additional support is needed.

Population health outreach and care coordination

Our nurse practitioners (NPs) deliver high-quality clinical care and coordination through in-person visits¹ and telehealth visits, ensuring members receive timely, evidence-based interventions that improve their health outcomes.

How we drive meaningful results:

- **Perform comprehensive health evaluations** including physical exams, medication reconciliation and health risk assessments (HRAs) to identify gaps and prevent complications.
- **Deliver preventive care and education**, including screenings, lifestyle counseling and disease-specific interventions tailored to each member's health history and current diagnoses.
- **Complete point-of-care testing** such as HbA1c, blood pressure, kidney function and other diagnostics to monitor chronic conditions and guide immediate clinical decisions.
- **Prescribe and refill medications**² when clinically appropriate, ensuring continuity for members awaiting PCP appointments or transitioning to new providers.
- **Coordinate directly with PCPs** by scheduling appointments on behalf of members and sharing visit notes to maintain transparency and seamless care.
- **Arrange NP follow-up visits** for members with uncontrolled conditions (e.g., diabetes or hypertension) to provide ongoing support and work toward better control.
- **Facilitate referrals** to care management and order durable medical equipment (DME) when needed to support recovery and independence.
- **Address social determinants of health (SDOH)** by connecting members to community resources for housing, food, transportation and other unmet needs.

This hands-on, proactive approach strengthens provider partnerships by reducing missed follow-ups, improving engagement and closing care gaps.

Member access and experience

Open scheduling is now live across 22 Molina footprint states. This strategic initiative empowers providers and care management partners to schedule complementary visits on behalf of members for preventive visits, chronic condition follow-ups and other care needs at no cost. Members can also self-schedule.

Schedule a Care Connections visit for members who are:

- Homebound
- Managing uncontrolled chronic conditions
- Experiencing frequent avoidable emergency department or hospital admissions
- Unable to secure appointments due to provider availability or accessibility
- Facing unmet SDOH or DME needs
- Unengaged with ongoing gaps in care
- Recently discharged from the hospital and need a transition of care (TOC) visit

Schedule now using this link: [MyChart – Schedule an Appointment](#)

Remember, Care Connections continues to remove barriers to care by offering in-person visits and telehealth options with interpreter services on a case-by-case basis and in keeping with state regulations.

Care quality improvement and behavioral health integration

Care Connections influences key quality measures, including diabetes management, blood pressure control, kidney health evaluation and colorectal cancer screenings. Behavioral health integration is also embedded in our model. We offer bridge therapy visits and crisis support to members until they are able to be connected with behavioral health providers.

Together, we can ensure every member stays connected to a PCP while receiving additional support that drives meaningful outcomes and member satisfaction. Care Connections is your clinic without walls, committed to collaboration and measurable impact.

Electronic records access

Care Connections visit records are available through EpicCare Link—a HIPAA-secure web portal provided by Molina.

Access the EpicCare Link portal here: CCLink.MolinaHealthcare.com

For support, please email ClinicalSupport@MolinaHealthcare.com.

1. Molina Care Connections services and workflows comply with state-specific regulations and may vary by location and state.
2. Care Connections visits are always \$0 visits; there is no cost to the member. Some labs or medications provided during the visit may be subject to standard cost-sharing amounts based on the member's plan benefits.

Molina's utilization management

One of Molina's utilization management (UM) department's goals is to render appropriate UM decisions consistent with objective clinical evidence. To achieve this goal, Molina maintains the following guidelines:

- Our highly trained UM staff evaluates medical information received by our providers against nationally recognized objective- and evidence-based criteria. We also consider individual circumstances (at minimum age, comorbidities, complications, progress of treatment, psychosocial situation and home environment, when applicable) and the local delivery system when determining the medical appropriateness of requested health care services.
- Molina's clinical criteria include:
 - MCG criteria that are utilized to conduct inpatient review (except when Change Healthcare InterQual® is contractually required)
 - American Society of Addiction Medicine (ASAM) criteria
 - National Comprehensive Cancer Network (NCCN)
 - Hayes Directories
 - Applicable Medicaid guidelines
 - Molina Clinical Policy (MCP) and Molina Clinical Review (MCR) developed by designated corporate medical affairs staff in conjunction with Molina physicians serving on the Medical Coverage Guidance Committee
 - UpToDate®
 - Other nationally recognized criteria, including technology assessments and well-controlled studies that meet industry standards, Molina policy, and when appropriate, third-party (outside) board-certified physician reviewers
- Molina ensures all criteria used for UM decision-making are available to practitioners upon request. The clinical policy website, MolinaClinicalPolicy.com, provides access to MCP and MCR criteria. Providers can also access the MCG Cite for Care Guideline Transparency tool through our [portal](#). To obtain a copy of the UM criteria used in the decision-making process, contact our UM department by calling Provider Services at **(844) 782-2678**, Monday-Friday, 7 a.m. – 6 p.m. CT.
- As the requesting practitioner, you will receive written notification of all UM denial decisions. If you need assistance contacting a medical reviewer about a case, please call the UM department by calling Provider Services at **(844) 782-2678**, Monday-Friday, 7 a.m. – 6 p.m. CT.

It is important to remember:

- UM decision-making is based only on the appropriateness of care and service and the existence of coverage.
- Molina does not specifically reward practitioners or other individuals for issuing denials of coverage or care.
- UM decision-makers do not receive financial incentives or other types of compensation to encourage decisions that result in underutilization.
- Practitioners may freely communicate with patients about their treatment, regardless of benefit coverage.

Molina's utilization management (continued)

- Medicaid members have the right to a second opinion from a qualified practitioner. If an appropriate practitioner is not available in-network, Molina will arrange for a member to obtain a second opinion out of network at no additional cost to the member. Molina provides for a second opinion from a qualified in-network practitioner. Members from all Molina lines of business and programs should refer to their benefit documents (such as schedule of benefits and/or evidence of coverage) for second-opinion coverage benefit details, limitations and cost-share information. If an appropriate practitioner is unavailable in-network, prior authorization (PA) is required to obtain the second opinion of an out-of-network provider. Claims for out-of-network providers without a PA will be denied, unless regulation dictates otherwise. All diagnostic testings, consultations, treatments, and/or surgical procedures must be a benefit under the plan and meet all applicable medical necessity criteria to be covered.
- Some of the most common reasons for a delay or denial of a request include:
 - Insufficient or missing clinical information to provide the basis for making the decision
 - Lack of or missing progress notes or illegible documentation

Molina's UM Department staff is available for inbound collect or toll-free calls during regular business hours to provide information about the UM process and the authorization of care. If you wish to speak with a member of the UM staff, please call Provider Services at 844-782-2678, Monday-Friday, 7 a.m. – 6 p.m., CT. You may also fax a question about an UM issue to Molina. The Medical Director is available for more complex medical decision questions and explanations of medical necessity denials.

Molina offers the ability to quickly and conveniently submit and status check prior authorization (PA) through our provider portal, available at: [Portal](#).

Molina PA fax numbers include:

- **Advanced Imaging: (877) 731-7218**
- **Medicaid Physical & Behavioral Health: (833) 832-1015**
- **Medicaid Pharmacy: (844) 782-2678**
- **Medicaid Radiology: (855) 714-2415**
- **Medicaid Transplant: (855) 714-2415**
- **Medicare Physical & Behavioral Health: (844) 251-1540**
- **Medicare Inpatient: (844) 834-2152**
- **Medicare Part D Pharmacy: (866) 290-1309**

For information about Molina's formulary PA and the exception process, please refer to the Drug Formulary and Pharmaceutical Procedures article.

Molina's regular business hours are Monday – Friday (excluding holidays) 8:00 a.m. – 5:00 p.m. CT. Voicemail messages and faxes received after regular business hours will be returned the following business day. Molina has language assistance and TDD/TTY services for members with language barriers, members who are deaf or hard of hearing, and members with speech disabilities.

Case management

Molina offers you and your patients the opportunity to participate in our Complex Case Management Program. Patients appropriate for this voluntary program are those who have the most complex service needs. This may include your patients with multiple medical conditions, high level of dependence, conditions that require care from multiple specialties, and/or have additional social, psychosocial, psychological, and emotional issues that exacerbate the condition, treatment regime, and/or discharge plan.

The purpose of the Molina Complex Case Management Program is to:

- Conduct a needs assessment of the patient, patient's family, and/or caregiver
- Provide intervention and care coordination services within the benefit structure across the continuum of care
- Empower our patients to optimize their health and level of functioning
- Facilitate access to medically necessary services and ensure they are provided at the appropriate level of care in a timely manner
- Provide a comprehensive and ongoing care plan for continuity of care in coordination with you, your staff, your patient, and the patient's family

If you would like to learn more about this program, speak with a Complex Case Manager, and/or refer a patient for an evaluation for this program, please contact Healthcare Services through Provider Services at **(844) 782-2678**, Monday-Friday, 7 a.m. - 6 p.m. CT.

Important message – Updating provider information

It is important for Molina to keep our provider network information current. Up to date provider information allows Molina to accurately generate provider directories, process claims, and communicate with our network of providers. Providers must notify Molina in writing at least 30 days in advance when possible of changes, such as:

- Change in practice ownership or Federal Tax ID number
- Practice name change
- A change in practice address, phone or fax numbers
- Change in practice office hours
- New office site location
- **Primary Care Providers (PCP) Only:** If your practice opens or closes to new patients
- When a provider joins or leaves the practice

Changes should be submitted on the Provider Information Update Form located on the Molina website at MolinaHealthcare.com located in the Provider Forms area.

Send changes by Email to: NEProviderRosters@MolinaHealthcare.com

Contact your Provider Relations Representative at NEProviderRelations@MolinaHealthcare.com if you have questions.

Practitioner credentialing rights: What you need to know

Molina must protect its members by assuring the care they receive is of the highest quality. One protection is assurance that our providers have been credentialed according to the strict standards established by the state regulators and accrediting organizations. Your responsibility, as a Molina provider, includes full disclosure of all issues and timely submission of all credentialing and re-credentialing information.

Molina also has a responsibility to its providers to assure the credentialing information it reviews is complete and accurate. As a Molina provider, you have the right to:

- Strict confidentiality of all information submitted during the credentialing process
- Nondiscrimination during the credentialing process
- Be notified of information obtained during the credentialing process that varies substantially from what is submitted by you
- Review information submitted from outside primary sources (e.g., malpractice insurance carriers, state licensing boards) to support your credentialing application, except for references, recommendations or other peer-review protected information
- Correct erroneous information
- Be informed of the status of your application upon request by calling the Credentialing Department

Practitioner credentialing rights: What you need to know (continued)

- Receive notification of the credentialing decision within 60 days of the committee decision or shorter timeframes as contractually required
- Receive notification of your rights as a provider to appeal an adverse decision made by the committee
- Be informed of the above rights

For further details on all your rights as a Molina provider, please review your provider manual. You may review the provider manual on our website at MolinaHealthcare.com or contact your Provider Relations Representative for more details at NEProviderRelations@MolinaHealthcare.com.

- Clinical Practice and Preventive Health Guidelines
- Health Management Programs
- Quality Improvement Programs
- Member Rights & Responsibilities
- Privacy Notices
- Provider Manual
- Current Formulary
- Cultural Competency Provider Trainings

If you would like to receive any of the information posted on our website in hard copy, please call Provider Services at **(844) 782-2678**, Monday-Friday, 7 a.m. – 6 p.m. CT.

Translation services

We can provide information in our members' primary language. We can arrange for an interpreter to help you speak with our members in almost any language. We also provide written materials in different languages and formats. If you need an interpreter or written materials in a language other than English, please contact Molina Provider Services at **(844) 782-2678**, Monday-Friday, 7 a.m. – 6 p.m. CT. You can also call **TTD/TTY: 711**, if a member has a hearing or speech disability.

Additionally, now that Nebraska Medicaid offers coverage for Sign Language, Oral Interpretive, and Interpretation services, providers must offer their own interpreters to members and bill for these services through normal claims filing processes. Providers should refer to Nebraska Medicaid for coverage criteria details. Providers must support Member access to telephonic interpreter services by offering a telephone with speaker capability or a telephone with a dual headset.

Patient safety

Patient safety activities encompass appropriate safety projects and error avoidance for Molina members in collaboration with their PCPs.

The Molina patient safety activities address the following:

- Continued information about safe office practices
- Member education about members taking an active role in reducing the risk of errors in their care
- Member education about safe medication practices
- Cultural competency training
- Improvement in the continuity and coordination of care between providers to avoid miscommunication
- Improvement in the continuity and coordination between sites of care, such as hospitals and other facilities, to ensure timely and accurate communication
- Distribution of research on proven safe clinical practices

Molina also monitors nationally recognized quality index ratings for facilities from:

- Leapfrog Quality Index Ratings (leapfroggroup.org)
- The Joint Commission Quality Check® (qualitycheck.org)

Providers can also access the following links for additional information on patient safety:

- The Leapfrog Group (leapfroggroup.org)
- The Joint Commission (jointcommission.org)

Care for older adults

Many adults over 65 have comorbidities that often affect their quality of life. As this demographic ages, decreased physical function, cognitive ability and increased pain are common. Regular assessment of these additional health aspects can help ensure this population's needs are appropriately met.

- Advance care planning – Discussions regarding treatment preferences, such as advance directives, should start before the member is seriously ill.
- Medication review – All medications the member takes, including prescription and over-the-counter medications or herbal therapies, should be reviewed.
- Functional status assessment – which includes those for functional independence or loss of independent performance.
- Pain screening consists of notating the presence or absence of pain.

Providers should include these components in their standard well-care practice for older adults to help identify unrecognized ailments and increase their quality of life.

Hours of operation Requirement

Molina requires that providers offer Molina members hours of operation no less than hours offered to commercial members.

Non-discrimination

All providers who join the Molina provider network must comply with the provisions and guidance set forth by the Department of Health and Human Services (HHS), the Office for Civil Rights (OCR), State law, and Federal program rules which prohibit discrimination. For additional information please refer to:

Medicaid Member Handbook: [Your Member Handbook](#)

Medicare Member Material: [Member Materials and Forms | Medicare](#)

Additionally, participating providers or contracted medical groups/IPAs may not limit their practices because of a member's medical (physical or mental) condition or the expectation for the need of frequent or high-cost care.

Member rights and responsibilities

Molina wants to inform its providers about some of the rights and responsibilities of Molina members.

Molina members have the right to:

- Receive information about Molina, its services, its practitioners and providers and member rights and responsibilities
- Be treated with respect and recognition of their dignity and their right to privacy
- Help make decisions about their health care
- Participate with practitioners in making decisions about their health care
- A candid discussion of appropriate or medically necessary treatment options for their conditions—regardless of cost or benefit coverage
- Voice complaints or appeals about Molina or the care provided
- Make recommendations regarding Molina member rights and responsibilities policy

Molina members have the responsibility to:

- Supply information (to the extent possible) that Molina and its practitioners and providers need to provide care
- Follow plans and instructions for care that they have agreed to with their practitioners
- Understand their health problems and participate in developing mutually agreed-upon treatment goals to the degree possible
- Keep appointments and be on time (If members are going to be late or cannot keep an appointment, they are instructed to call their practitioner.)

You can find the complete Molina Member Rights and Responsibilities Statement for Nebraska on our website, [MolinaHealthcare.com](https://www.molinahealthcare.com). Written copies and more information can be obtained by contacting the Provider Services Department at **(844) 782-2678**, Monday-Friday, 7 a.m. – 6 p.m. CT.

Population health (health education, disease management, care management and complex case management)

The tools and services described here are educational support for our members. We may change them at any time to meet their needs.

Molina offers programs to help our members and their families manage a diagnosed health condition. As a provider, you also help us identify members who may benefit from these programs. Members can request to be enrolled or disenrolled in these programs. Our programs include:

- Asthma management
- Diabetes management
- High blood pressure management
- Cardiovascular disease (CVD) management/ congestive heart disease
- Chronic obstructive pulmonary disease (COPD) management
- Depression management
- High-risk obstetrician-gynecologist (OB/ GYN) case management
- Transition of care (ToC)

You can find more information about our programs at **MolinaHealthcare.com**.

If you have additional questions about our programs, please call: Provider Services Department at (844) 782-2678, Monday-Friday, 7 a.m. – 6 p.m. CT (TTY/TDD at 711 Relay).

Quality improvement program

Molina's quality improvement (QI) program provides the structure and key processes that enable the health plan to carry out our commitment to ongoing improvement in members' health care and service. The QI committee assists the organization in achieving these goals. It is an evolving program that is responsive to the changing needs of the health plan's members and the standards established by the medical community and regulatory and accrediting bodies.

The key quality processes include but are not limited to:

- Implementation of programs and processes to improve members' outcomes and health status
- Collaboration with our contracted provider network to identify relevant care processes, develop tools and design meaningful measurement methodologies for provided care and service
- Evaluation of the effectiveness of programs, interventions and process improvements and determination of further actions
- Design of effective and value-added interventions
- Continuous monitoring of performance parameters and comparing to performance standards and benchmarks published by national, regional or state regulators, accrediting organizations and internal Molina thresholds
- Analysis of information and data to identify trends and opportunities and the appropriateness of care and services
- Oversight and improvement of functions that may be delegated: claims, UM and/or credentialing
- Confirmation of the quality and adequacy of the provider and health delivery organization network through appropriate contracting and credentialing processes

Quality improvement program (continued)

The QI program promotes and fosters accountability of employees, network and affiliated health personnel for the quality and safety of care and services provided to Molina members.

The effectiveness of QI program activities in producing measurable improvements in the care and service provided to members is evaluated by:

- Organizing multidisciplinary teams—including clinical experts—to analyze service and process improvement opportunities, determine actions for improvement and evaluate results
- Tracking the progress of quality activities and goals through appropriate quality committee minutes and reviewing/updating the quality work plan quarterly
- Revising interventions based on analysis when indicated
- Evaluating member satisfaction with their experience of care through the Consumer Assessment of Healthcare Providers and Systems (CAHPS®) survey
- Reviewing member satisfaction with their experience with behavioral health services through survey questions and/or evaluation of behavioral health-specific complaints and appeals
- Conducting provider satisfaction surveys with specific questions about the UM process, such as determining the level of satisfaction with getting a service approved, obtaining a referral and case management

Molina would like to help you to promote the important care activities you have undertaken in your practices. If you would like to have your projects and programs highlighted on the Molina website, please contact the Quality Improvement Department by calling Provider Services at **(844) 782-2678**, Monday-Friday, 7 a.m. - 6 p.m. CT.

If you would like more information about our Quality Improvement Program or initiatives and the progress toward meeting quality goals you can visit our website at MolinaHealthcare.com and access the Health Resources area located on our provider website pages to obtain more information. If you would like to request a paper copy of our documents, please contact the Quality Department by calling Provider Services at **(844) 782-2678**, Monday-Friday, 7 a.m. - 6 p.m. CT.

Standards for medical record documentation

Providing quality care to our members is important; therefore, Molina has established standards for medical record documentation to help assure the highest quality of care. Medical record standards promote quality care through communication, coordination and continuity of care and efficient and effective treatment.

The following is an overview of the medical record standards and documentation requirements. For a complete list of Nebraska standards and documentation requirements, please refer to the “Medical Records” section of the Nebraska Provider Manual under the Provider Guides section of our [website](#).

Molina’s medical record documentation standards include:

- Medical record content
- Medical record organization
- Information filed in medical records
- Ease of retrieving medical records
- Confidential patient information
- Standards and performance goals for participating providers

Below are commonly accepted standards for documentation in medical records and must be included in each medical record:

- History and physicals
- Allergies and adverse reactions
- Problem list
- Medications
- Documentation of clinical findings and evaluation for each visit
- Preventive services/risk screening

For more information, please contact the Quality Department by calling Provider Services at **(844) 782-2678**, Monday-Friday, 7 a.m. - 6 p.m. CT.

Preventive health guidelines

Preventive Health Guidelines can be beneficial to providers and their patients. Guidelines are based on scientific evidence, review of the medical literature, or appropriately established authority, as cited. All recommendations are based on published consensus guidelines and do not favor any particular treatment based solely on cost considerations.

These guidelines are meant to recommend a standard level of care and do not preclude the delivery of additional preventive services depending on the individual needs of the patient.

You can also view all guidelines at MolinaHealthcare.com by accessing the Health Resources section within our provider webpages. To request printed copies of Preventive Health Guidelines, please contact Provider Services at **(844) 782-2678**, Monday-Friday, 7 a.m. - 6 p.m. CT.

Clinical practice guidelines are based on scientific evidence, a review of the medical literature or appropriately established authority, as cited. All recommendations are based on published consensus guidelines and do not favor any particular treatment based solely on cost considerations. The care recommendations are suggested as guides for making clinical decisions. Providers and our members must work together to develop individual treatment plans tailored to the member's specific needs and circumstances.

Molina has adopted the following Clinical Practice and Behavioral Health Guidelines, which include but are not limited to:

- Acute stress and post-traumatic stress disorder (PTSD)
- Anxiety/panic disorder
- Asthma
- Attention deficit hyperactivity disorder (ADHD)
- Autism
- Bipolar disorder
- Children with special health care needs
- Chronic kidney disease
- Chronic obstructive pulmonary disease
- Depression
- Diabetes
- Heart failure in adults
- Homelessness - special health care needs
- Hypertension
- Opioid management
- Perinatal care
- Pregnancy management
- Schizophrenia
- Sickle cell disease
- Substance use treatment
- Suicide risk
- Trauma-informed primary care
- Weight management

You can also view all guidelines at [MolinaHealthcare.com](https://www.molinahealthcare.com) in the Health Resources section of the provider webpages. To request a copy of any guideline, please contact Molina's Provider Services Department at **(844) 782-2678**, Monday-Friday, 7 a.m. - 6 p.m. CT.

Advance directives

Helping your patients prepare for advance directives may not be as hard as you think. Any person 19 years or older can create an advance directive. Advance directives include a living will document and a durable power of attorney.

A living will is written instruction that explains your patient's wishes regarding health care in the case of a terminal illness or any medical procedures that prolong life. A durable power of attorney names a person to make decisions for your patient if he or she becomes unable to do so.

The following links provide free forms and information to help create an advance directive:

- [CaringInfo](#)
- [National Library of Medicine](#)

For the living will document, your patient will need two witnesses. For a durable power of attorney document, your patient will need valid notarization.

A patient's advance directive must be honored to the fullest extent permitted under law. Providers should discuss advance directives and provide appropriate medical advice if the patient desires guidance or assistance, including any objections they may have to a patient directive prior to service whenever possible. Providers cannot refuse to treat a patient or otherwise discriminate against a patient because the patient has completed an advance directive. Patients have the right to file a complaint if they are dissatisfied with the handling of an advance directive and/or if there is a failure to comply with advance directive instructions.

It is helpful to have materials available for patients to take and review at their convenience. Be sure to put a copy of the completed form in a prominent section of the medical record. The medical record should also document if a patient chooses not to execute an advance directive. Let your patients know advance care planning is a part of good health care.

Behavioral health

Primary care providers (PCPs) provide outpatient behavioral health services within the scope of their practice and are responsible for coordinating members' physical and behavioral health care.

Behavioral Health services are a direct access benefit and are available with no required referrals; however, PCPs are responsible for assisting in coordinating access and treatment, if needed. If you or the member need assistance with obtaining behavioral health services, please contact Member Services Department at **(844) 782-2018**, Monday – Friday, 8 a.m. – 6 p.m. CT. Molina's Nurse Advice Line is also available to members 24 hours a day, seven days a week, 365 days per year for mental health or substance abuse needs, and can be reached at **(844) 782-2721** or **TTY/TDD 711**. The services Members receive will be confidential.

Providers may refer to the Molina Behavioral Health Toolkit for Providers on the molinahealthcare.com public website for additional clinical guidance, recommendations, and trainings/education opportunities related to behavioral health conditions. Providers can locate the "Behavioral Health Toolkit" under the Health Resources tab on our [website](#).

Care coordination and transitions

Coordination of care during planned and unplanned transitions for Molina members

Molina is dedicated to providing quality care for our members during planned or unplanned transitions. A transition is when members move from one setting to another, such as when a Molina member is discharged from a hospital. By working together with providers, Molina makes a special effort to coordinate care during transitions to avoid potential adverse outcomes.

Molina has resources to assist you in easing the challenge of coordinating care. Our staff, including nurses, can work with all parties to ensure appropriate care.

To appropriately coordinate care, Molina will need the following information in writing from the facility within one business day of the transition from one setting to another:

- Discharge plan when the member is transferred to another setting
- A copy of the member's discharge instructions when discharged to home

This information should be faxed to Molina at:

- UM Department: **(833) 832-1015**
- CM Department: **(833) 352-2359**

Health Risk Screener and self-management tools

Molina provides members with a Health Risk Screener (health appraisal) on the My Molina® member portal. Our members are asked questions about their health and behaviors and receive a report about possible health risks. A self-management tool is also available to offer guidance for weight management, depression, financial wellness and various other topics. Molina members can access these tools on [MyMolina.com](https://www.mymolina.com).
