Provider Manual Update

On 7/27/2022, the Molina Medicaid, Marketplace, Medicare, and Dual Options Provider Manuals were updated to include an addendum on Interoperability. Interoperability supports the accuracy and completeness of each member's health status by allowing organizations, like Molina, to receive notifications of care events.

Adding this language helps to ensure that our members, your patients, get the best care possible with minimal gaps in communication and data exchange. Interoperability is both a regulatory requirement and opportunity to enhance Molina's offerings related to HEIDS measures, Quality performance incentives and NCQA standards.
