

**By Provider Type and Specialty**

Information below is a detailed view of drugs that require prior authorization(s) with approval and denial rates by specific drug name. For each drug identified below, the provider type and associated provider specialties are listed. A provider type is a doctor, hospital or other healthcare professional. A provider specialty is a doctor or healthcare provider who specializes in an area of practice.

Service Code/Drug Name	Service Code Description	APPROVED	DENIED	Total Prior Authorizations
