Important notice from Molina Healthcare:
Prior auth (PA) application sunsetting in Availity Payer Spaces, effective August 25, 2025

Starting August 25, 2025, the legacy prior authorization (PA) application in Availity Payer Spaces will be removed.

You will need to use the **multi-payer Availity authorization tool** to continue submitting digital authorization requests. We encourage you to start using the tool now to ensure a smooth transition.

Benefits of the new Availity authorization tool

Enhance your workflow with these key features:

- **Authorization request:** Use a streamlined, guided form to submit inpatient and outpatient requests. Easily verify if prior authorization is required using the built-in lookup tool and save time by creating templates for frequently used request types.

- **Authorization inquiry:** Check the status of any prior authorization request submitted by phone, fax or digital channels.

- **Authorization dashboard:** Track and manage all prior authorizations in one place, including those submitted via Availity or manually pinned to your dashboard. Easily filter and sort results and access any incomplete requests saved automatically in the Drafts tab.

Training available

Want to explore all the features? Access our on-demand training anytime at **Molina PA Training.**

Before accessing the training, be sure that:
- You're logged in to Availity
- Your browser allows pop-ups from the following sites:
  - https://apps.availity.com

MOLINA HEALTHCARE

Get started today

Make sure you're ready before August 25:

1. Confirm your authorization role assignment with your organization's Availity administrator — this is required to access the tool.

2. Log in to Availity Essentials and go to **Patient Registration > Authorizations and Referrals** to begin using the app.

Not yet registered with Availity Essentials?

Your organization's designated Availity administrator can visit **Availity.com** and select **Get Started**. For help with registration, please contact **Availity Customer Support**.
