Important Notice of Program Implementation – Evolent Advanced Imaging Program (All Lines of Business)

Molina Healthcare of Washington cares about our members' health and is continually enhancing programs to improve the quality of care. We are pleased to announce that we are expanding our collaboration with Evolent as the administrator of the Molina Healthcare Advanced Imaging Program.

Beginning **October 15, 2026**, all Medicare, Medicaid and Marketplace members will require prior authorization through Evolent for select advanced imaging services being rendered in a provider office, freestanding diagnostic facility or outpatient hospital such as CT/CTA, MRI/MRA, and PET scans.

Treatment plans will be reviewed using nationally recognized evidence-based guidelines. We hope you will find value in the following enhancements coming with the Evolent partnership:

- Real-time authorizations for evidence-based treatment plans submitted through the Evolent online portal, RadMD at evolent.com/provider-portal
- Eligibility verification is available directly in the portal prior to submitting a treatment plan.
- Telephonic intake option, available for submitting treatment plans when needed.
- Evolent physicians on staff to conduct physician discussions.
- A dedicated Evolent practice engagement team to ensure a smooth transition and provide ongoing support.

Authorizations issued by Molina Healthcare of Washington before October 15, 2026 are effective until the authorization expiration date. Providers should submit all new prior authorization requests to Evolent for services scheduled on or after that date starting October 15th using one of the following methods:

- Log in to the Evolent provider portal, RadMD at evolent.com/provider-portal
