Marketplace Benefit Interpretation

Marketplace National Regional Benefit Interpretation Document

Benefit Name	POST MASTECTOMY SURGERY
Applicable State	California, Florida, Idaho, Illinois, Kentucky, Michigan, Mississippi, Nevada, New Mexico, Ohio, South Carolina, Texas, Utah, Washington, Wisconsin
Benefit Definition	This policy addresses post mastectomy surgery. Covered benefits are listed in three (3) Sections - A, B and C. All services must be medically necessary. Each benefit plan contains its own specific provisions for coverage, limitations and exclusions as stated in the member's Evidence of Coverage (EOC)/Schedule of Benefits (SOB). If there is a discrepancy between this policy and the member's EOC/SOB, the member's EOC/SOB provision will govern. **Essential Health Benefits for Individual and Small Group** For plan years beginning on or after January 1, 2014, the Affordable Care Act of 2010 (ACA) requires fully insured non-grandfathered individual and small group plans (inside and outside of Exchanges) to provide coverage for ten categories of Essential Health Benefits ("EHBs"). Large group plans (both self-funded and fully insured), and small group ASO plans, are not subject to the requirement to offer coverage for EHBs. However, if such plans choose to provide coverage for benefits which are deemed EHBs (such as maternity benefits), the ACA requires all dollar limits on those benefits to be removed on all Grandfathered and Non-Grandfathered plans. The determination of which benefits constitute EHBs is made on a state by state basis. As such, when using this guideline, it is important to refer to the member specific benefit document to determine benefit coverage. **A. FEDERAL/STATE MANDATED REGULATIONS** **Note: The most current federal/state mandated regulations for each state can be found in the links below.** **FEDERAL:** **Women's Health and Cancer Rights Act of 1998**

CALIFORNIA:

California Health & Safety Code §1367.635 -Mastectomy and Reconstructive Surgery Coverage

California Health & Safety Code Section 1367.6 –Breast Cancer; Mastectomies

SB 535 (APL 21-025): Prohibits plans, on or after July 1, 2022, from requiring prior authorization for
1) biomarker testing for an enrollee with advanced or metastatic stage 3 or 4 cancer or
2) biomarker testing for cancer progression or recurrence in the enrollee with advanced or metastatic stage 3 or 4 cancer.

Allows a plan to require prior authorization for biomarker-testing that is not for an FDA-approved therapy for advanced or metastatic stage 3 or 4 cancer.

RECONSTRUCTIVE SURGERY

CALIFORNIA:

Reconstructive Surgery: Molina covers the following reconstructive surgery services when Prior Authorized:

- Reconstructive surgery to correct or repair abnormal structures of the body caused by congenital defects, developmental abnormalities, trauma, infection, tumors, or disease such that surgery is necessary to improve function or create a normal appearance, to the extent possible.
- Removal of all or part of a breast (mastectomy), reconstruction of the breast following a Medically Necessary mastectomy, surgery and reconstruction of the other breast to produce a symmetrical appearance following reconstruction of one breast, and treatment of physical complications, including lymphedemas.

FLORIDA, IDAHO, MISSISSIPPI, NEVADA, OHIO, SOUTH CAROLINA, WISCONSIN:

Reconstructive Surgery: Molina covers the following reconstructive surgery services when Prior Authorized:

- Reconstructive surgery to correct or repair abnormal structures of the body caused by congenital defects, developmental abnormalities, trauma, infection, tumors, or disease such that surgery is necessary to improve function
- Removal of all or part of a breast (mastectomy), reconstruction of the breast following a Medically Necessary mastectomy, surgery and

reconstruction of the other breast to produce a symmetrical appearance following reconstruction of one breast, and treatment of physical complications, including lymphedemas.

ILLINOIS:
Reconstructive Surgery: Molina covers the following reconstructive surgery services when Prior Authorized:

- Reconstructive surgery to correct or repair abnormal structures of the body caused by congenital defects, conditions resulting from accidental injuries, developmental abnormalities, scars, trauma, infection, tumors, or disease such that surgery is necessary to improve function.
- Removal of all or part of a breast (mastectomy), reconstruction of the breast following a Medically Necessary mastectomy, surgery and reconstruction of the other breast to produce a symmetrical appearance following reconstruction of one breast, and treatment of physical complications, including lymphedemas.
- Breast reduction surgery if medically necessary**.**
- Removal of breast implant if medically necessary.

KENTUCKY:
Reconstructive Surgery: Passport covers the following reconstructive surgery services when Prior Authorized:

- Reconstructive surgery to correct or repair abnormal structures of the body caused by congenital defects, developmental abnormalities, trauma, infection, tumors, or disease such that surgery is necessary to improve function.
- Removal of all or part of a breast (mastectomy), reconstruction of the breast following a Medically Necessary mastectomy, surgery, and reconstruction of the other breast to produce a symmetrical appearance following reconstruction of one breast, and treatment of physical complications, including lymphedemas.

MICHIGAN:
Reconstructive Surgery: Molina covers the following reconstructive surgery services when Prior Authorized:

- Reconstructive surgery to correct or repair abnormal structures of the body caused by congenital defects, developmental abnormalities, trauma, infection, tumors, or disease such that surgery is necessary to improve function.
- Removal of all or part of a breast (mastectomy), reconstruction of the breast following a Medically Necessary mastectomy, surgery and reconstruction of the other breast to produce a symmetrical

appearance following reconstruction of one breast, and treatment of physical complications, including lymphedemas.

The following Medically Necessary surgeries:

- Blepharoplasty of upper lids
- Breast reduction
- Surgical treatment of male gynecomastia
- Panniculectomy
- Sleep apnea treatments – including rhinoplasty and septorhinoplasty

NEW MEXICO:
Reconstructive Surgery: Molina covers the following reconstructive surgery services when Prior Authorized:

- Reconstructive surgery to correct or repair abnormal structures of the body caused by congenital defects, developmental abnormalities, trauma, infection, tumors, or disease such that surgery is necessary to improve function.
- Removal of all or part of a breast (mastectomy), reconstruction of the breast following a Medically Necessary mastectomy, surgery and reconstruction of the other breast to produce a symmetrical appearance following reconstruction of one breast, and treatment of physical complications, including lymphedemas.
- Medically necessary services related to gender affirming care and the treatment for gender dysphoria

TEXAS:
Reconstructive Surgery: Molina covers the following reconstructive surgery services when Prior Authorized:

- Reconstructive surgery to correct or repair abnormal structures of the body caused by congenital defects, developmental abnormalities, trauma, infection, tumors, or disease such that surgery is necessary to improve function.
- Removal of all or part of a breast (mastectomy), reconstruction of the breast following a Medically Necessary mastectomy, surgery and reconstruction of the other breast to produce a symmetrical appearance following reconstruction of one breast, and treatment of physical complications, including lymphedemas
- For a child who is younger than 18 years of age, Molina covers reconstructive surgery for craniofacial abnormalities. Such coverage includes surgery to improve the function of, or to attempt to create a normal appearance of, an abnormal structure caused by

congenital defects, developmental deformities, trauma, tumors, infections, or disease.

UTAH:
Reconstructive Surgery: Molina covers the following reconstructive surgery services when Prior Authorized:

- Reconstructive surgery to correct or repair abnormal structures of the body caused by congenital defects, developmental abnormalities, trauma, infection, tumors, or disease such that surgery is necessary to improve function.
- Removal of all or part of a breast (mastectomy), reconstruction of the breast following a Medically Necessary mastectomy, surgery and reconstruction of the other breast to produce a symmetrical appearance following reconstruction of one breast, and treatment of physical complications, including lymphedemas.
- Reconstructive Surgery made necessary by an Accidental injury in the preceding five years.

WASHINGTON:
Reconstructive Surgery: Molina covers the following reconstructive surgery services when Prior Authorized:

- Reconstructive surgery to correct or repair abnormal structures of the body caused by congenital defects, developmental abnormalities, trauma, infection, tumors, or disease such that surgery is necessary to improve function, including for newborn Members.
- Removal of all or part of a breast (mastectomy), reconstruction of the breast following a Medically Necessary mastectomy, surgery, and reconstruction of the other breast to produce a symmetrical appearance following reconstruction of one breast, and treatment of physical complications, including lymphedemas.

ALL STATES:
For Covered Services related to reconstructive surgery, you will pay the Cost Sharing the member would pay if the Covered Services were not related to reconstructive surgery. For example, for hospital inpatient care, you would pay the Cost Sharing listed under "Inpatient Hospital Services" in the Schedule of Benefits.

CANCER TREATMENT

CALIFORNIA:

Cancer Treatment: Molina provides the following coverages for cancer care and treatment, including, but not limited to:

- Preventive cancer screening and testing (please refer to the BI Policy titled Preventive Care Services for more information)

NEW MEXICO:
Cancer Treatment: Molina provides the following coverages for cancer care and treatment, including, but not limited to:

- Preventive cancer screening and testing (please refer to the Preventive Services Benefit Policy)
- Diagnostic screening, laboratory, and procedures
- Dental evaluation, X-rays, fluoride treatment, and extractions necessary to prepare the Member's jaw for radiation therapy of cancer and other neoplastic diseases in the Member's head or neck
- Mastectomies (removal of breast) and lymph node dissections (not less than 48 hours of inpatient care following a mastectomy and 24 hours of inpatient care following a lymph node dissection for the treatment of breast cancer)
- Mastectomy-related services (please refer to the Reconstructive Surgery and DME and Prosthetic Benefit Policy)
- Routine patient care costs for Members who are participating in an Approved Clinical Trial for cancer
- Prescription medications to treat cancer (please refer to the Medications and Prescription Drug Benefit Policy)
- Skin cancer behavioral counseling (age 6 months to 24 years)

OHIO:
Cancer Treatment: Molina provides the following coverages for cancer care and treatment, including, but not limited to:

- Preventive care screening and testing (please refer to the Preventive Services Benefit Policy)
- Diagnostic screening, laboratory, and procedures
- Dental evaluation, X-rays, fluoride treatment, and extractions necessary to prepare the Member's jaw for radiation therapy of cancer and other neoplastic diseases in the Member's head or neck
- Mastectomies (removal of breast), four post-mastectomy surgical bras, and lymph node dissections for the treatment of breast cancer

- Mastectomy-related services (please refer to the Reconstructive Surgery and DME and Prosthetic Benefit Policy)
- Routine patient care costs for Members who are participating in an Approved Clinical Trial for cancer (please refer to the Approved Clinical Trial Benefit Policy)
- Prescription medications to treat cancer (please refer to the Prescription Drug Benefit Policy)

SOUTH CAROLINA:
Cancer Treatment: Molina provides the following coverages for cancer care and treatment, including, but not limited to:

- Preventive screening and testing (please refer to the Preventive Services Benefit Policy)
- Diagnostic screening, laboratory, and procedures
- Dental evaluation, X-rays, fluoride treatment, and extractions necessary to prepare the Member's jaw for radiation therapy of cancer and other neoplastic diseases in the Member's head or neck
- Mastectomies (removal of breast) and lymph node dissections for the treatment of breast cancer. Coverage allows at least 48 hours of hospitalization following a mastectomy. In the case of an early release, coverage shall include at least one home care visit if ordered by the attending physician.
- Mastectomy-related services (please refer to the Reconstructive Surgery and DME and Prosthetic Benefit Policies)
- Routine patient care costs for Members who are participating in an Approved Clinical Trial for cancer (Please refer to the Approved Clinical Trial Policy)
- Prescription medications to treat cancer (please refer to the Prescription Drug Benefit Policy)

TEXAS:
Cancer Treatment: Molina provides the following coverages for cancer care and treatment, including, but not limited to:

- Preventive cancer screening and testing (please refer to the Preventive Services Policy)
- Diagnostic screening, laboratory, and procedures
- Dental evaluation, X-rays, fluoride treatment, and extractions necessary to prepare the Member's jaw for radiation therapy of cancer and other neoplastic diseases in the Member's head or neck
- Mastectomies (removal of breast) and lymph node dissections for the treatment of breast cancer
- Mastectomy-related services (please refer to the Reconstructive Surgery and Prosthetic and Orthotic Devices Policy)

- Routine patient care costs for Members who are participating in an Approved Clinical Trial for cancer (please refer to the Approved Clinical Trial Policy)
- Prescription medications to treat cancer (please refer to the Prescription Drugs Policy)

UTAH:
Cancer Treatment: Molina provides the following coverages for cancer care and treatment, including, but not limited to:

- Preventive cancer screening and testing (please refer to the Preventive Services Benefit Policy)
- Dental evaluation, X-rays, fluoride treatment, and extractions necessary to prepare the Member's jaw for radiation therapy of cancer and other neoplastic diseases in the Member's head or neck
- Mastectomies (removal of breast) and lymph node dissections for the treatment of breast cancer
- Mastectomy-related services (please refer to the Reconstructive Surgery and DME and Prosthetic Benefit Policies)
- Routine patient care costs for Members who are participating in an Approved Clinical Trial for cancer (please refer to the Approved Clinical Trial Benefit Policy)
- Prescription medications to treat cancer (please refer to the Prescription Drug section of this Agreement for full details). Molina covers prescribed oral chemotherapy and intravenously administered chemotherapy in parity.

WASHINGTON:
Cancer Treatment: Molina provides the following coverages for cancer prevention, screening, care, and treatment, including, but not limited to:

- Preventive cancer screening and testing (please refer to the Preventive Services Benefit Policy)
- Mammogram services, including both diagnostic breast examination and supplemental breast examinations (without Member Cost Sharing)
- Diagnostic breast examination means a medically necessary and appropriate examination of the breast, including an examination using diagnostic mammography, digital breast tomosynthesis, also called three-dimensional mammography, breast magnetic resonance imaging, or breast ultrasound, that is used to evaluate an abnormality seen or suspected from a screening examination for breast cancer; or detected by another means of examination.
- Supplemental breast examination means a medically necessary and appropriate examination of the breast, including an examination

using breast magnetic resonance imaging or breast ultrasound, that is used to screen for breast cancer when there is no abnormality seen or suspected and based on personal or family medical history, or additional factors that may increase the individual's risk of breast cancer.

- Colorectal screening for all adults age of forty-five (45) and older or colorectal screening for Members less than fifty (50) years old and at high risk or very high risk for colorectal cancer. Molina does not impose Cost Sharing for the following services that are integral to performing the colonoscopy:
  - Required specialist consultation prior to the screening procedure;
  - Bowel preparation medications prescribed for the screening procedure;
  - Anesthesia services performed in connection with a preventive colonoscopy;
  - Polyp removal performed during the screening procedure; and
  - Any pathology exam on a polyp biopsy performed as part of the screening procedure; or
  - A colonoscopy after a positive non-invasive stool-based screening test or direct visualization screening test is therefore required to be covered without cost sharing
- Dental evaluation, X-rays, fluoride treatment, and extractions necessary to prepare the Member's jaw for radiation therapy of cancer and other neoplastic diseases in the Member's head or neck
- Mastectomies (removal of breast) and lymph node dissections for the treatment of breast cancer
- Mastectomy-related services (please refer to the Reconstructive Surgery and Prosthetic and Orthotic Devices Benefit Policies)
- Routine patient care costs for Members who are participating in an Approved Clinical Trial for cancer (please refer to the Approved Clinical Trial Benefit Policy)
- Prescription medications to treat cancer (please refer to the Prescription Drug Benefit Policy)
- Biomarker testing services, when prescribed by a Participating Provider, are not subject to Prior Authorization requirements for Members with stage 3 or 4 cancer or for Members with recurrent, relapsed, refractory, or metastatic cancer.

WISCONSIN:
Cancer Treatment: Molina provides the following coverages for cancer care and treatment, including, but not limited to:

- Preventive cancer screening and testing (please refer to the Preventive Services Policy)
- Diagnostic screening, laboratory, and procedures
- Dental evaluation, X-rays, fluoride treatment, and extractions necessary to prepare the Member's jaw for radiation therapy of cancer and other neoplastic diseases in the Member's head or neck
- Mastectomies (removal of breast) and lymph node dissections for the treatment of breast cancer
- Mastectomy-related services (please refer to the Reconstructive Surgery and Prosthetic and Orthotic Devices Policies)
- Routine patient care costs for Members who are participating in an Approved Clinical Trial for cancer (please refer to the Approved Clinical Trial Policy)
- Prescription medications to treat cancer (please refer to the Prescription Drug Policy)

EXTERNAL DEVICES

VARIES FOR EACH MP STATE:

Please refer to the **DME, Prosthetics and Orthotic Devices** Benefit Interpretation Policy for more information on prosthesis after mastectomy

MORE INFORMATION

Refer to the Benefit Interpretation Policies titled **Reconstructive Surgery, Preventive Care and DME, Prosthetics and Orthotic Devices and Medications and Off-Label Drugs** for additional information

D. NOT COVERED

Refer to the member's Evidence of Coverage (EOC) and Schedule of Benefits (SOB) to determine coverage eligibility.

RECONSTRUCTIVE SURGERY

ALL STATES:

The following reconstructive surgery services are not covered:

- Surgery that, in the judgment of a Participating Provider specializing in reconstructive surgery, offers only a minimal improvement in appearance
- Surgery that is performed to alter or reshape normal structures of the body in order to improve appearance
- Surgery that does not result in a clinically significant improvement in a normal body function is not covered (Clinical)
