Recruiting CA Practices: Chlamydia Screening among Adolescents: eLearning Collaborative QI Project (Sept 2019-Mar 2020)

This is an advisory notification to Molina Healthcare of California (MHC) network providers regarding Recruiting CA Practices: Chlamydia Screening among Adolescents: eLearning Collaborative QI Project (Sept 2019-Mar 2020).

The California Department of Public Health, STD Control Branch, is recruiting practices to join the **Improving Chlamydia Screening among Adolescents eLearning Collaborative**. This QI project is statewide and web-based. It is focused on improving sexual health services and specifically chlamydia screening for adolescent patients in primary care settings – especially important these days given the STD epidemics we are experiencing across the state.

The following is a link to the project website and the registration application online: <https://californiaptc.com/national-quality-improvement-center/chlamydia-screening-for-adolescent-patients-elearning-collaborative/>. **The application for practices closes on July 26, 2019.**

We would appreciate your support in promoting this learning collaborative among your network providers.

QUESTIONS

If you have any questions regarding the notification, please contact your Molina Provider Services Representative at (855) 322-4075. Please refer to the extensions to the left.
