Putting Tools & Resources into Practice

THE SUMMIT seeks to engage clinicians and administrators with a vested interest in improving clinical dementia care within health plans, physician provider groups (PPGs), and managed long-term services and support agencies.

The Summit will focus on cutting edge tools and strategies for:

- Earlier identification of dementia
- More person- and family-centered care practices
- Effective partnerships with community-based Alzheimer's organizations for disease education and support

The goal: Have leaders begin implementing the tools and strategies shared at the Summit within their organizations.
