## OHIO URINE DRUG SCREEN PRIOR AUTHORIZATION (PA) REQUEST FORM

The Clinical Advisory Group of the Ohio Department of Mental Health and Addiction Services established broad guidelines to appropriate clinical use of urine drug screening for patients with a substance use disorder. These guidelines took into account ease of access for patients by eliminating barriers to care, as well as account for patient safety, acuity, risk of relapse/overdose, level of care, and sustained abstinence.

<sup>&</sup>lt;sup>1</sup> OHIO URINE DRUG SCREEN PRIOR AUTHORIZATION (PA) REQUEST FORM T0977

<sup>&</sup>lt;sup>1</sup> Definition of Relapse: (ASAM National Practice Guideline (2015) A process in which an individual who has established abstinence or sobriety experiences recurrence of signs and symptoms of active addiction, often including resumption of the pathological pursuit of reward and/or relief through the use of substances and other behaviors.
