

## Marketplace Prior Authorization (PA) Code Matrix Effective January, 2023

To search this document, type in the keyword or code you are looking for by pressing press Ctrl F on your keyboard.

Please contact Molina at 1-855-322-4080 if you need more information about the Third-Party Proprietary Criteria referenced in this document.

Information that indicates certain items or services do not require authorization in this Prior Authorization (PA) Code Matrix document is only applicable for Participating Providers.

**FOR ANY PA CHANGES DUE TO REGULATORY GUIDANCE RELATED TO COVID 19 – PLEASE SEE PROVIDER NOTIFICATIONS AND MOST CURRENT INFORMATION ON THE PROVIDER PORTAL.**

Most Non-Participating Providers require authorization regardless of services or codes (see exceptions to rule below).

Prior authorization exceptions for Non-Participating Offices/Providers/Facilities:

- Emergency Department Services;
- Local Health Department (LHD) services
- Other services based on State requirements
- Professional fees associated with an Emergency Department visit and approved Ambulatory Surgery Center (ASC) or in-patient stay
- Prior authorization is waived for all Radiology, Anesthesiology, and Pathology services when billed in Place of Service Code 19, 21, 22, 23 or 24
- Prior authorization is waived for professional component services or services billed with Modifier 26 in ANY place of service setting

All In-Patient admits and services require Prior Authorization, including: Acute Hospital, Neonatal Intensive Care Unit (NICU), Skilled Nursing Facilities (SNF), Rehabilitation, Hospice and Long-Term Acute Care (LTAC) Facilities.

Observation stays require a prior authorization after the first 48 hours.

The codes below are for Out-Patient services only.

**Some services listed may not be covered by the Marketplace benefit plan. CMS or your local State Regulatory Agency determines many of the plan benefits. The absence of a code from this list does not mean that a service is a covered benefit.**

Refer to the explanation of coverage (EOC) and Summary of Benefits for plan benefit information.

Prior authorizations are not required for the following:

- Emergency Services for Participating or Non-Participating Providers.
- Office visits or office-based procedures at Participating Providers unless specifically required in another category.
- Referrals to Participating Network Specialists.

Prior Authorization is not a guarantee of payment for services. Payment is made in accordance with a determination of the member's eligibility on the date(s) of service (for Marketplace members this includes grace period status), benefit limitations or exclusions and other applicable standards during the claim review, including the terms of any applicable provider agreement. For additional information on a member's grace period status, please contact Molina Healthcare 1-855-322-4080.

Most gene therapy is not covered for Marketplace members. Molina covers limited gene therapy services in accordance with our medical policies, subject to Prior Authorization.

**Prior authorization is not required for Texas Gold Card Providers ONLY for the specific codes determined to be exempt for each individual provider.**

[Pharmacy Services Screening Criteria Link](#)

The prior authorization information reflected on this document is general in nature and is not intended to be relied upon in making medical decisions. The criteria listed below is generally accurate, but may be different based on factors such as specific medical condition or type of provider requesting the service. Each patient will have unique medical conditions, submitted by his/her physician in a particularized manner, that will factor into documents required, criteria applied, and Molina's decision of whether to approve or deny a requested service. Please contact Molina or your doctor to get more information regarding prior authorization for any particular service.

**This document is NOT be utilized to make benefit coverage determinations.**

Service Category Notes	Effective Date	Code	Definition	Documentation Requirements	Criteria	Notes
<p><b>Healthcare Administered Drugs/Pharmacy Drug Coverage:</b></p> <p>Newly FDA approved medications such as “buy-and-bill” drugs are considered non-formulary and subject to non-formulary policies and other non-formulary utilization criteria until a coverage decision is rendered by the Molina Pharmacy and Therapeutics Committee. “Buy-and-bill” drugs are pharmaceuticals which a provider purchases and administers, and for which the provider submits a claim to Molina Healthcare for reimbursement.</p> <p>Many self-administered and office-administered injectable products require Prior Authorization (PA). In some cases they will be made available through Molina Healthcare’s vendor, Caremark Specialty Pharmacy. Molina’s pharmacy vendor will coordinate with MHI and ship the prescription directly to your office or the member’s home. All packages are individually marked for each member, and refrigerated drugs are shipped in insulated packages with frozen gel packs. The service also offers the additional convenience of enclosing needed ancillary supplies (needles, syringes and alcohol swabs) with each prescription at no charge. Please contact your Provider Relations Representative with any further questions about the program. Pharmacy authorization regardless of CPT/HCPC code requests should be faxed to: 888-487-9251.</p>	9/1/2019	90281	IMMUNE GLOBULIN IG HUMAN IM USE	<p>Information generally required to support authorization decision making includes, but not limited to:</p> <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information.</li> </ul>	Intravenous Immunoglobulin (IVig)

<p><b>Healthcare Administered Drugs/Pharmacy Drug Coverage:</b></p> <p>Newly FDA approved medications such as “buy-and-bill” drugs are considered non-formulary and subject to non-formulary policies and other non-formulary utilization criteria until a coverage decision is rendered by the Molina Pharmacy and Therapeutics Committee. “Buy-and-bill” drugs are pharmaceuticals which a provider purchases and administers, and for which the provider submits a claim to Molina Healthcare for reimbursement.</p> <p>Many self-administered and office-administered injectable products require Prior Authorization (PA). In some cases they will be made available through Molina Healthcare’s vendor, Caremark Specialty Pharmacy. Molina’s pharmacy vendor will coordinate with MHI and ship the prescription directly to your office or the member’s home. All packages are individually marked for each member, and refrigerated drugs are shipped in insulated packages with frozen gel packs. The service also offers the additional convenience of enclosing needed ancillary supplies (needles, syringes and alcohol swabs) with each prescription at no charge. Please contact your Provider Relations Representative with any further questions about the program. Pharmacy authorization regardless of CPT/HCPC code requests should be faxed to: 888-487-9251.</p>	4/1/2020	90371	Hepatitis B immune globulin (HBIG), human, for intramuscular use	<p>Information generally required to support authorization decision making includes, but not limited to:</p> <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information.</li> </ul>	Hep B Immune Globulin
