Imaging & Special Tests	7/1/2021	0635T	COMPUTED TOMOGRAPHY, BREAST, INCLUDING 3D RENDERING, WHEN PERFORMED, UNILATERAL; WITHOUT CONTRAST, FOLLOWED BY CONTRAST MATERIAL(S)	<p>Information generally required to support authorization decision making includes, but not limited to:</p> <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information.</li> </ul>	Third Party Proprietary Criteria	
Imaging & Special Tests	7/1/2021	0636T	COMPUTED TOMOGRAPHY, BREAST, INCLUDING 3D RENDERING, WHEN PERFORMED, BILATERAL; WITHOUT CONTRAST MATERIAL(S)	<p>Information generally required to support authorization decision making includes, but not limited to:</p> <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information.</li> </ul>	Third Party Proprietary Criteria	
Imaging & Special Tests	7/1/2021	0637T	COMPUTED TOMOGRAPHY, BREAST, INCLUDING 3D RENDERING, WHEN PERFORMED, BILATERAL; WITH CONTRAST MATERIAL(S)	<p>Information generally required to support authorization decision making includes, but not limited to:</p> <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information.</li> </ul>	Third Party Proprietary Criteria	

Service Category Notes	Effective Date	Code	Definition	Documentation Requirements	Criteria	Notes
Imaging & Special Tests	7/1/2021	0638T	COMPUTED TOMOGRAPHY, BREAST, INCLUDING 3D RENDERING, WHEN PERFORMED, BILATERAL; WITHOUT CONTRAST, FOLLOWED BY CONTRAST MATERIAL(S)	Information generally required to support authorization decision making includes, but not limited to: <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information.</li> </ul>	Third Party Proprietary Criteria	
Experimental/Investigational	7/1/2021	0639T	WIRELESS SKIN SENSOR THERMAL ANISOTROPY MEASUREMENT(S) AND ASSESSMENT OF FLOW IN CEREBROSPINAL FLUID SHUNT, INCLUDING ULTRASOUND GUIDANCE, WHEN PERFORMED	Information generally required to support authorization decision making includes, but not limited to: <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information.</li> </ul>	Third Party Proprietary Criteria	
Experimental & Investigational Procedures	7/1/2021	0640T	Noncontact near-infrared spectroscopy studies of flap or wound (eg, for measurement of deoxyhemoglobin, oxyhemoglobin, and ratio of tissue oxygenation [StO2]); image acquisition, interpretation and report, each flap or wound	Information generally required to support authorization decision making includes, but not limited to: <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information.</li> </ul>	Molina Clinical Policy: Experimental and Investigational Services	
Experimental & Investigational Procedures	7/1/2021	0641T	Noncontact near-infrared spectroscopy studies of flap or wound (eg, for measurement of deoxyhemoglobin, oxyhemoglobin, and ratio of tissue oxygenation [StO2]); image acquisition only, each flap or wound	Information generally required to support authorization decision making includes, but not limited to: <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information.</li> </ul>	Molina Clinical Policy: Experimental and Investigational Services	

Service Category Notes	Effective Date	Code	Definition	Documentation Requirements	Criteria	Notes
Experimental & Investigational Procedures	7/1/2021	0642T	Noncontact near-infrared spectroscopy studies of flap or wound (eg, for measurement of deoxyhemoglobin, oxyhemoglobin, and ratio of tissue oxygenation [StO2]); interpretation and report only, each flap or wound	Information generally required to support authorization decision making includes, but not limited to: <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information.</li> </ul>	Molina Clinical Policy: Experimental and Investigational Services	
Experimental & Investigational Procedures	7/1/2021	0643T	Transcatheter left ventricular restoration device implantation including right and left heart catheterization and left ventriculography when performed, arterial approach	Information generally required to support authorization decision making includes, but not limited to: <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information.</li> </ul>	Molina Clinical Policy: Experimental and Investigational Services	
Experimental & Investigational Procedures	7/1/2021	0644T	Transcatheter removal or debulking of intracardiac mass (eg, vegetations, thrombus) via suction (eg, vacuum, aspiration) device, percutaneous approach, with intraoperative reinfusion of aspirated blood, including imaging guidance, when performed	Information generally required to support authorization decision making includes, but not limited to: <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information.</li> </ul>	Molina Clinical Policy: Experimental and Investigational Services	
Experimental & Investigational Procedures	7/1/2021	0645T	Transcatheter implantation of coronary sinus reduction device including vascular access and closure, right heart catheterization, venous angiography, coronary sinus angiography, imaging guidance, and supervision and interpretation, when performed	Information generally required to support authorization decision making includes, but not limited to: <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information.</li> </ul>	Molina Clinical Policy: Experimental and Investigational Services	

Service Category Notes	Effective Date	Code	Definition	Documentation Requirements	Criteria	Notes
Experimental & Investigational Procedures	7/1/2021	0646T	Transcatheter tricuspid valve implantation/replacement (TTVI) with prosthetic valve, percutaneous approach, including right heart catheterization, temporary pacemaker insertion, and selective right ventricular or right atrial angiography, when performed	Information generally required to support authorization decision making includes, but not limited to: <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information.</li> </ul>	Molina Clinical Policy: Experimental and Investigational Services	
Experimental & Investigational Procedures	7/1/2021	0647T	Insertion of gastrostomy tube, percutaneous, with magnetic gastroscopy, under ultrasound guidance, image documentation and report	Information generally required to support authorization decision making includes, but not limited to: <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information.</li> </ul>	Molina Clinical Policy: Experimental and Investigational Services	
Experimental & Investigational Procedures	7/1/2021	0648T	Quantitative magnetic resonance for analysis of tissue composition (eg, fat, iron, water content), including multiparametric data acquisition, data preparation and transmission, interpretation and report, obtained without diagnostic MRI examination of the same anatomy (eg, organ, gland, tissue, target structure) during the same session	Information generally required to support authorization decision making includes, but not limited to: <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information.</li> </ul>	Molina Clinical Policy: Experimental and Investigational Services	
Experimental & Investigational Procedures	7/1/2021	0649T	Quantitative magnetic resonance for analysis of tissue composition (eg, fat, iron, water content), including multiparametric data acquisition, data preparation and transmission, interpretation and report, obtained with diagnostic MRI examination of the same anatomy (eg, organ, gland, tissue, target structure) (List separately in addition to code for primary procedure)	Information generally required to support authorization decision making includes, but not limited to: <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information.</li> </ul>	Molina Clinical Policy: Experimental and Investigational Services	

Service Category Notes	Effective Date	Code	Definition	Documentation Requirements	Criteria	Notes
Experimental & Investigational Procedures	7/1/2021	0650T	Programming device evaluation (remote) of subcutaneous cardiac rhythm monitor system, with iterative adjustment of the implantable device to test the function of the device and select optimal permanently programmed values with analysis, review and report by a physician or other qualified health care professional	Information generally required to support authorization decision making includes, but not limited to: <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information.</li> </ul>	Molina Clinical Policy: Experimental and Investigational Services	
Experimental & Investigational Procedures	7/1/2021	0651T	Magnetically controlled capsule endoscopy, esophagus through stomach, including intraprocedural positioning of capsule, with interpretation and report	Information generally required to support authorization decision making includes, but not limited to: <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information.</li> </ul>	Molina Clinical Policy: Experimental and Investigational Services	
Experimental & Investigational Procedures	7/1/2021	0652T	Esophagogastroduodenoscopy, flexible, transnasal; diagnostic, including collection of specimen(s) by brushing or washing, when performed (separate procedure)	Information generally required to support authorization decision making includes, but not limited to: <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information.</li> </ul>	Molina Clinical Policy: Experimental and Investigational Services	
Experimental & Investigational Procedures	7/1/2021	0653T	Esophagogastroduodenoscopy, flexible, transnasal; with biopsy, single or multiple	Information generally required to support authorization decision making includes, but not limited to: <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information.</li> </ul>	Molina Clinical Policy: Experimental and Investigational Services	

Service Category Notes	Effective Date	Code	Definition	Documentation Requirements	Criteria	Notes
Experimental & Investigational Procedures	7/1/2021	0654T	Esophagogastroduodenoscopy, flexible, transnasal; with insertion of intraluminal tube or catheter	Information generally required to support authorization decision making includes, but not limited to: <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information.</li> </ul>	Molina Clinical Policy: Experimental and Investigational Services	
Experimental & Investigational Procedures	7/1/2021	0655T	Transperineal focal laser ablation of malignant prostate tissue, including transrectal imaging guidance, with MR-fused images or other enhanced ultrasound imaging	Information generally required to support authorization decision making includes, but not limited to: <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information.</li> </ul>	Molina Clinical Policy: Experimental and Investigational Services	
Experimental & Investigational Procedures	7/1/2021	0656T	Vertebral body tethering, anterior; up to 7 vertebral segments	Information generally required to support authorization decision making includes, but not limited to: <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information.</li> </ul>	Molina Clinical Policy: Experimental and Investigational Services	
Experimental & Investigational Procedures	7/1/2021	0657T	Vertebral body tethering, anterior; 8 or more vertebral segments	Information generally required to support authorization decision making includes, but not limited to: <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information.</li> </ul>	Molina Clinical Policy: Experimental and Investigational Services	

Service Category Notes	Effective Date	Code	Definition	Documentation Requirements	Criteria	Notes
Experimental & Investigational Procedures	7/1/2021	0658T	Electrical impedance spectroscopy of 1 or more skin lesions for automated melanoma risk score	Information generally required to support authorization decision making includes, but not limited to: <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information.</li> </ul>	Molina Clinical Policy: Experimental and Investigational Services	
Experimental & Investigational Procedures	7/1/2021	0660T	Implantation of anterior segment intraocular nonbiodegradable drug-eluting system, internal approach	Information generally required to support authorization decision making includes, but not limited to: <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information.</li> </ul>	Molina Clinical Policy: Experimental and Investigational Services	
Experimental & Investigational Procedures	7/1/2021	0661T	Removal and reimplantation of anterior segment intraocular nonbiodegradable drug-eluting implant	Information generally required to support authorization decision making includes, but not limited to: <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information.</li> </ul>	Molina Clinical Policy: Experimental and Investigational Services	
Experimental & Investigational Procedures	7/1/2021	0662T	Scalp cooling, mechanical; initial measurement and calibration of cap	Information generally required to support authorization decision making includes, but not limited to: <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information.</li> </ul>	Molina Clinical Policy: Experimental and Investigational Services	

Service Category Notes	Effective Date	Code	Definition	Documentation Requirements	Criteria	Notes
Experimental & Investigational Procedures	7/1/2021	0663T	Scalp cooling, mechanical; placement of device, monitoring, and removal of device (List separately in addition to code for primary procedure)	Information generally required to support authorization decision making includes, but not limited to: <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information.</li> </ul>	Molina Clinical Policy: Experimental and Investigational Services	
Experimental & Investigational Procedures	7/1/2021	0664T	Donor hysterectomy (including cold preservation); open, from cadaver donor	Information generally required to support authorization decision making includes, but not limited to: <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information.</li> </ul>	Molina Clinical Policy: Experimental and Investigational Services	
Experimental & Investigational Procedures	7/1/2021	0665T	Donor hysterectomy (including cold preservation); open, from living donor	Information generally required to support authorization decision making includes, but not limited to: <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information.</li> </ul>	Molina Clinical Policy: Experimental and Investigational Services	
Experimental & Investigational Procedures	7/1/2021	0666T	Donor hysterectomy (including cold preservation); laparoscopic or robotic, from living donor	Information generally required to support authorization decision making includes, but not limited to: <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information.</li> </ul>	Molina Clinical Policy: Experimental and Investigational Services	

Service Category Notes	Effective Date	Code	Definition	Documentation Requirements	Criteria	Notes
Experimental & Investigational Procedures	7/1/2021	0667T	Donor hysterectomy (including cold preservation); recipient uterus allograft transplantation from cadaver or living donor	<p>Information generally required to support authorization decision making includes, but not limited to:</p> <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information.</li> </ul>	Molina Clinical Policy: Experimental and Investigational Services	
Experimental & Investigational Procedures	7/1/2021	0668T	Backbench standard preparation of cadaver or living donor uterine allograft prior to transplantation, including dissection and removal of surrounding soft tissues and preparation of uterine vein(s) and uterine artery(ies), as necessary	<p>Information generally required to support authorization decision making includes, but not limited to:</p> <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information.</li> </ul>	Molina Clinical Policy: Experimental and Investigational Services	
Experimental & Investigational Procedures	7/1/2021	0669T	Backbench reconstruction of cadaver or living donor uterus allograft prior to transplantation; venous anastomosis, each	<p>Information generally required to support authorization decision making includes, but not limited to:</p> <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information.</li> </ul>	Molina Clinical Policy: Experimental and Investigational Services	
Experimental & Investigational Procedures	7/1/2021	0670T	Backbench reconstruction of cadaver or living donor uterus allograft prior to transplantation; arterial anastomosis, each	<p>Information generally required to support authorization decision making includes, but not limited to:</p> <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information.</li> </ul>	Molina Clinical Policy: Experimental and Investigational Services	

Service Category Notes	Effective Date	Code	Definition	Documentation Requirements	Criteria	Notes
OP Hosp/Amb Surgery Center (ASC) Procedures	1/1/2022	0671T	Insertion of anterior segment aqueous drainage device into the trabecular meshwork, without external reservoir, and without concomitant cataract removal, one or more	<p>Information generally required to support authorization decision making includes, but not limited to:</p> <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information</li> </ul>	Third Party Proprietary Criteria	
OP Hosp/Amb Surgery Center (ASC) Procedures	1/1/2022	0672T	Endovaginal cryogen-cooled, monopolar radiofrequency remodeling of the tissues surrounding the female bladder neck and proximal urethra for urinary incontinence	<p>Information generally required to support authorization decision making includes, but not limited to:</p> <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information</li> </ul>	Third Party Proprietary Criteria	
OP Hosp/Amb Surgery Center (ASC) Procedures	1/1/2022	0673T	Ablation, benign thyroid nodule(s), percutaneous, laser, including imaging guidance	<p>Information generally required to support authorization decision making includes, but not limited to:</p> <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information</li> </ul>	Third Party Proprietary Criteria	
OP Hosp/Amb Surgery Center (ASC) Procedures	1/1/2022	0674T	Laparoscopic insertion of new or replacement of permanent implantable synchronized diaphragmatic stimulation system for augmentation of cardiac function, including an implantable pulse generator and diaphragmatic lead(s)	<p>Information generally required to support authorization decision making includes, but not limited to:</p> <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information</li> </ul>	Third Party Proprietary Criteria	

Service Category Notes	Effective Date	Code	Definition	Documentation Requirements	Criteria	Notes
OP Hosp/Amb Surgery Center (ASC) Procedures	1/1/2022	0675T	Laparoscopic insertion of new or replacement of diaphragmatic lead(s), permanent implantable synchronized diaphragmatic stimulation system for augmentation of cardiac function, including connection to an existing pulse generator; first lead	Information generally required to support authorization decision making includes, but not limited to: <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information</li> </ul>	Third Party Proprietary Criteria	
OP Hosp/Amb Surgery Center (ASC) Procedures	1/1/2022	0676T	Laparoscopic insertion of new or replacement of diaphragmatic lead(s), permanent implantable synchronized diaphragmatic stimulation system for augmentation of cardiac function, including connection to an existing pulse generator; each additional lead (List separately in addition to code for primary procedure)	Information generally required to support authorization decision making includes, but not limited to: <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information</li> </ul>	Third Party Proprietary Criteria	
OP Hosp/Amb Surgery Center (ASC) Procedures	1/1/2022	0677T	Laparoscopic repositioning of diaphragmatic lead(s), permanent implantable synchronized diaphragmatic stimulation system for augmentation of cardiac function, including connection to an existing pulse generator; first repositioned lead	Information generally required to support authorization decision making includes, but not limited to: <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information</li> </ul>	Third Party Proprietary Criteria	
OP Hosp/Amb Surgery Center (ASC) Procedures	1/1/2022	0678T	Laparoscopic repositioning of diaphragmatic lead(s), permanent implantable synchronized diaphragmatic stimulation system for augmentation of cardiac function, including connection to an existing pulse generator; each additional repositioned lead (List separately in addition to code for primary procedure)	Information generally required to support authorization decision making includes, but not limited to: <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information</li> </ul>	Third Party Proprietary Criteria	

Service Category Notes	Effective Date	Code	Definition	Documentation Requirements	Criteria	Notes
OP Hosp/Amb Surgery Center (ASC) Procedures	1/1/2022	0679T	Laparoscopic removal of diaphragmatic lead(s), permanent implantable synchronized diaphragmatic stimulation system for augmentation of cardiac function	Information generally required to support authorization decision making includes, but not limited to: <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information</li> </ul>	Third Party Proprietary Criteria	
OP Hosp/Amb Surgery Center (ASC) Procedures	1/1/2022	0680T	Insertion or replacement of pulse generator only, permanent implantable synchronized diaphragmatic stimulation system for augmentation of cardiac function, with connection to existing lead(s)	Information generally required to support authorization decision making includes, but not limited to: <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information</li> </ul>	Third Party Proprietary Criteria	
OP Hosp/Amb Surgery Center (ASC) Procedures	1/1/2022	0681T	Relocation of pulse generator only, permanent implantable synchronized diaphragmatic stimulation system for augmentation of cardiac function, with connection to existing dual leads	Information generally required to support authorization decision making includes, but not limited to: <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information</li> </ul>	Third Party Proprietary Criteria	
OP Hosp/Amb Surgery Center (ASC) Procedures	1/1/2022	0682T	Removal of pulse generator only, permanent implantable synchronized diaphragmatic stimulation system for augmentation of cardiac function	Information generally required to support authorization decision making includes, but not limited to: <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information</li> </ul>	Third Party Proprietary Criteria	

Service Category Notes	Effective Date	Code	Definition	Documentation Requirements	Criteria	Notes
OP Hosp/Amb Surgery Center (ASC) Procedures	1/1/2022	0683T	Programming device evaluation (in-person) with iterative adjustment of the implantable device to test the function of the device and select optimal permanent programmed values with analysis, review and report by a physician or other qualified health care professional, permanent implantable synchronized diaphragmatic stimulation system for augmentation of cardiac function	Information generally required to support authorization decision making includes, but not limited to: <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information</li> </ul>	Third Party Proprietary Criteria	
OP Hosp/Amb Surgery Center (ASC) Procedures	1/1/2022	0684T	Peri-procedural device evaluation (in-person) and programming of device system parameters before or after a surgery, procedure, or test with analysis, review, and report by a physician or other qualified health care professional, permanent implantable synchronized diaphragmatic stimulation system for augmentation of cardiac function	Information generally required to support authorization decision making includes, but not limited to: <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information</li> </ul>	Third Party Proprietary Criteria	
OP Hosp/Amb Surgery Center (ASC) Procedures	1/1/2022	0685T	Interrogation device evaluation (in-person) with analysis, review and report by a physician or other qualified health care professional, including connection, recording and disconnection per patient encounter, permanent implantable synchronized diaphragmatic stimulation system for augmentation of cardiac function	Information generally required to support authorization decision making includes, but not limited to: <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information</li> </ul>	Third Party Proprietary Criteria	
OP Hosp/Amb Surgery Center (ASC) Procedures	1/1/2022	0686T	Histotripsy (ie, non-thermal ablation via acoustic energy delivery) of malignant hepatocellular tissue, including image guidance	Information generally required to support authorization decision making includes, but not limited to: <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information</li> </ul>	Third Party Proprietary Criteria

<b>Healthcare Administered Drugs/Pharmacy Drug Coverage:</b> Newly FDA approved medications such as “buy-and-bill” drugs are considered non-formulary and subject to non-formulary policies and other non-formulary utilization criteria until a coverage decision is rendered by the Molina Pharmacy and Therapeutics Committee. “Buy-and-bill” drugs are pharmaceuticals which a provider purchases and administers, and for which the provider submits a claim to Molina Healthcare for reimbursement. Many self-administered and office-administered injectable products require Prior Authorization (PA). In some cases they will be made available through Molina Healthcare’s vendor, Caremark Specialty Pharmacy. Molina’s pharmacy vendor will coordinate with MHI and ship the prescription directly to your office or the member’s home. All packages are individually marked for each member, and refrigerated drugs are shipped in insulated packages with frozen gel packs. The service also offers the additional convenience of enclosing needed ancillary supplies (needles, syringes and alcohol swabs) with each prescription at no charge. Please contact your Provider Relations Representative with any further questions about the program. Pharmacy authorization regardless of CPT/HCPC code requests should be faxed to: 888-487-9251.	10/1/2019	A9274	EXTERNAL AMB INSULIN DEL SYSTEM DISPOSABLE EA	Information generally required to support authorization decision making includes, but not limited to: <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information.</li> </ul>		Disposable Insulin Delivery Device

<p><b>Healthcare Administered Drugs/Pharmacy Drug Coverage:</b> Newly FDA approved medications such as “buy-and-bill” drugs are considered non-formulary and subject to non-formulary policies and other non-formulary utilization criteria until a coverage decision is rendered by the Molina Pharmacy and Therapeutics Committee. “Buy-and-bill” drugs are pharmaceuticals which a provider purchases and administers, and for which the provider submits a claim to Molina Healthcare for reimbursement. Many self-administered and office-administered injectable products require Prior Authorization (PA). In some cases they will be made available through Molina Healthcare’s vendor, Caremark Specialty Pharmacy. Molina’s pharmacy vendor will coordinate with MHI and ship the prescription directly to your office or the member’s home. All packages are individually marked for each member, and refrigerated drugs are shipped in insulated packages with frozen gel packs. The service also offers the additional convenience of enclosing needed ancillary supplies (needles, syringes and alcohol swabs) with each prescription at no charge. Please contact your Provider Relations Representative with any further questions about the program. Pharmacy authorization regardless of CPT/HCPC code requests should be faxed to: 888-487-9251.</p>	9/1/2019	B4105	IN-LINE CART CTG DIG ENZYME ENTERAL FEEDING EA	<p>Information generally required to support authorization decision making includes, but not limited to:</p> <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information.</li> </ul>	Global J Code Criteria

<b>Healthcare Administered Drugs/Pharmacy Drug Coverage:</b> Newly FDA approved medications such as “buy-and-bill” drugs are considered non-formulary and subject to non-formulary policies and other non-formulary utilization criteria until a coverage decision is rendered by the Molina Pharmacy and Therapeutics Committee. “Buy-and-bill” drugs are pharmaceuticals which a provider purchases and administers, and for which the provider submits a claim to Molina Healthcare for reimbursement. Many self-administered and office-administered injectable products require Prior Authorization (PA). In some cases they will be made available through Molina Healthcare’s vendor, Caremark Specialty Pharmacy. Molina’s pharmacy vendor will coordinate with MHI and ship the prescription directly to your office or the member’s home. All packages are individually marked for each member, and refrigerated drugs are shipped in insulated packages with frozen gel packs. The service also offers the additional convenience of enclosing needed ancillary supplies (needles, syringes and alcohol swabs) with each prescription at no charge. Please contact your Provider Relations Representative with any further questions about the program. Pharmacy authorization regardless of CPT/HCPC code requests should be faxed to: 888-487-9251.	9/1/2019	C9047	INJECTION CAPLACIZUMAB-YHDP 1 MG	Information generally required to support authorization decision making includes, but not limited to: <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information.</li> </ul>		Global J Code Criteria

Many self-administered and office-administered injectable products require Prior Authorization (PA). In some cases they will be made available through Molina Healthcare’s vendor, Caremark Specialty Pharmacy. Molina’s pharmacy vendor will coordinate with MHI and ship the prescription directly to your office or the member’s home. All packages are individually marked for each member, and refrigerated drugs are shipped in insulated packages with frozen gel packs. The service also offers the additional convenience of enclosing needed ancillary supplies (needles, syringes and alcohol swabs) with each prescription at no charge. Please contact your Provider Relations Representative with any further questions about the program. Pharmacy authorization regardless of CPT/HCPC code requests should be faxed to: 888-487-9251.</p>	9/1/2019	J1459	INJ IMMUNE GLOBULIN IV NONLYOPHILIZED 500 MG	Information generally required to support authorization decision making includes, but not limited to: <ul style="list-style-type: none"> <li>•Current (up to 6 months), adequate patient history related to the requested services such as: office and hospital records;</li> <li>•History of the presenting problem</li> <li>•Clinical exam;</li> <li>•Pertinent diagnostic testing results, operative and/or pathological reports;</li> <li>•Treatment plan and progress notes;</li> <li>•Pertinent psychosocial history;</li> <li>•Information and consultations with the treating practitioner;</li> <li>•Pertinent evaluations from other health care practitioners and providers;</li> <li>•Pertinent charts, graphs or photographic information, as appropriate;</li> <li>•Rehabilitation evaluations;</li> <li>•Information regarding the local delivery system; and</li> <li>•Patient characteristics and information.</li> </ul>	Intravenous Immunoglobulin (IVig)

<p><b>Healthcare Administered Drugs/Pharmacy Drug Coverage:</b>  Newly FDA approved medications such as “buy-and-bill” drugs are considered non-formulary and subject to non-formulary policies and other non-formulary utilization criteria until a coverage decision is rendered by the Molina Pharmacy and Therapeutics Committee. “Buy-and-bill” drugs are pharmaceuticals which a provider purchases and administers, and for which the provider submits a claim to Molina Healthcare for reimbursement.  Many self-administered and office-administered injectable products require Prior Authorization (PA). In some cases they will be made available through Molina Healthcare’s vendor, Caremark Specialty Pharmacy. Molina’s pharmacy vendor will coordinate with MHI and ship the prescription directly to your office or the member’s home. All packages are individually marked for each member, and refrigerated drugs are shipped in insulated packages with frozen gel packs. The service also offers the additional convenience of enclosing needed ancillary supplies (needles, syringes and alcohol swabs) with each prescription at no charge. Please contact your Provider Relations Representative with any further questions about the program. <b>Healthcare Administered Drugs/Pharmacy Drug Coverage:</b> Newly FDA approved medications such as “buy-and-bill” drugs are considered non-formulary and subject to non-formulary policies and other non-formulary utilization criteria until a coverage decision is rendered by the Molina Pharmacy and Therapeutics Committee. “Buy-and-bill” drugs are pharmaceuticals which a provider purchases and administers, and for which the provider submits a claim to Molina Healthcare for reimbursement. Many self-administered and office-administered injectable products require Prior Authorization (PA). In some cases they will be made available through Molina Healthcare’s vendor, Caremark Specialty Pharmacy. Molina’s pharmacy vendor will coordinate with MHI and ship the prescription directly to your office or the member’s home. All packages are individually marked for each member, and refrigerated drugs are shipped in insulated packages with frozen gel packs. The service also offers the additional convenience of enclosing needed ancillary supplies (needles, syringes and alcohol swabs) with each prescription at no charge. Please contact your Provider Relations Representative with any further questions about the program. <b>Healthcare Administered Drugs/Pharmacy Drug Coverage:</b> Newly FDA approved medications such as “buy-and-bill” drugs are considered non-formulary and subject to non-formulary policies and other non-formulary utilization criteria until a coverage decision is rendered by the Molina Pharmacy and Therapeutics Committee. “Buy-and-bill” drugs are pharmaceuticals which a provider purchases and administers, and for which the provider submits a claim to Molina Healthcare for reimbursement. Many self-administered and office-administered injectable products require Prior Authorization (PA). In some cases they will be made available through Molina Healthcare’s vendor, Caremark Specialty Pharmacy. Molina’s pharmacy vendor will coordinate with MHI and ship the prescription directly to your office or the member’s home. All packages are individually marked for each member, and refrigerated drugs are shipped in insulated packages with frozen gel packs. The service also offers the additional convenience of enclosing needed ancillary supplies (needles, syringes and alcohol swabs) with each prescription at no charge. <b>Healthcare Administered Drugs/Pharmacy Drug Coverage:</b> Newly FDA approved medications such as “buy-and-bill” drugs are considered non-formulary and subject to non-formulary policies and other non-formulary utilization criteria until a coverage decision is rendered by the Molina Pharmacy and Therapeutics Committee. “Buy-and-bill” drugs are pharmaceuticals which a provider purchases and administers, and for which the provider submits a claim to Molina Healthcare for reimbursement. Many self-administered and office-administered injectable products require Prior Authorization (PA). In some cases they will be made available through Molina Healthcare’s vendor, Caremark Specialty Pharmacy. Molina’s pharmacy vendor will coordinate with MHI and ship the prescription directly to your office or the member’s home. All packages are individually marked for each member, and refrigerated drugs are shipped in insulated packages with frozen gel packs. The service also offers the additional convenience of enclosing needed ancillary supplies (needles, syringes and alcohol swabs) with each prescription at no charge. Please contact your Provider Relations Representative with any further questions about the program. <b>Healthcare Administered Drugs/Pharmacy Drug Coverage:</b> Newly FDA approved medications such as “buy-and-bill” drugs are considered non-formulary and subject to non-formulary policies and other non-formulary utilization criteria until a coverage decision is rendered by the Molina Pharmacy and Therapeutics Committee. “Buy-and-bill” drugs are pharmaceuticals which a provider purchases and administers, and for which the provider submits a claim to Molina Healthcare for reimbursement. Many self-administered and office-administered injectable products require Prior Authorization (PA). In some cases they will be made available through Molina Healthcare’s vendor, Caremark Specialty Pharmacy. Molina’s pharmacy vendor will coordinate with MHI and ship the prescription directly to your office or the member’s home. All packages are individually marked for each member, and refrigerated drugs are shipped in insulated packages with frozen gel packs. The service also offers the additional convenience of enclosing needed ancillary supplies (needles, syringes and alcohol swabs) with each prescription at no charge. Please contact your Provider Relations Representative with any further questions about the program. <p><b>Healthcare Administered Drugs/Pharmacy Drug Coverage:</b>            Newly FDA approved medications such as “buy-and-bill” drugs are considered non-formulary and subject to non-formulary policies and other non-formulary utilization criteria until a coverage decision is rendered by the Molina Pharmacy and Therapeutics Committee. “Buy-and-bill” drugs are pharmaceuticals which a provider purchases and administers, and for which the provider submits a claim to Molina Healthcare for reimbursement.            Many self-administered and office-administered injectable products require Prior Authorization (PA). In some cases they will be made available through Molina Healthcare’s vendor, Caremark Specialty Pharmacy. Molina’s pharmacy vendor will coordinate with MHI and ship the prescription directly to your office or the member’s home. All packages are individually marked for each member, and refrigerated drugs are shipped in insulated packages with frozen gel packs. The service also offers the additional convenience of enclosing needed ancillary supplies (needles, syringes and alcohol swabs) with each prescription at no charge. Please contact your Provider Relations Representative with any further questions about the program. Pharmacy authorization regardless of CPT/HCPC code requests should be faxed to: 888-487-9251.</p>	1/1/2022	J9319	Injection, romidepsin, lyophilized, 0.1 mg		Third Party Proprietary Criteria
