

**ATTENTION PROVIDERS!****Non-Emergency Dental Outpatient Anesthesiology and Sedation AHCA Notice**

Effective October 1, 2025, payment responsibility for non-emergency dental outpatient anesthesiology and sedation services (those performed in a hospital or ASC) will move from Florida Medicaid's dental plans to Medicaid health plans.

The dental plans will continue to be responsible for the coverage of anesthesiology and sedation services (DDS, DMD, MD, DO, APRN, and CRNA) when provided in conjunction with dental services in an office setting when medically necessary.

Molina Healthcare will have a 60-day COC period following the transition.

The health plan will honor any appointments and procedures scheduled prior to October 1, 2025, and reimburse non-participating providers at the rate they received prior to the transition date unless the provider agrees to an alternative rate.

Non-emergency dental outpatient anesthesia and sedation services **do not require prior authorization**.

If you have additional questions, please join us for our upcoming webinars. Visit our website's provider homepage to register for one of the below dates/times.
